Senator Quay says that Pennsylvania has more Republicans in her borders and can give a bigger Republican majority than at any time in her history.

The North Atlantic Squadron arrived in Buzzard Bay, Vineyard Sound, Sunday afternoon, after a pleasant trip from South Harbor. The Lant's boilers were in so poor condition that the Doolock took her to town. The vessels were expected to reach Newport on the evening of the 30th.

This country grows. They have just been celebrating the twenty-fifth anniversary of the battle of New Ulm, in Minnesota, reaching the famous Indian massacres of '62. At that time savages were killing and scalping and ravaging the country. Now it is the most thickly settled agricultural section of Minnesota.

The Kansas City, (Mo.) Press publishes answers received to inquiries sent out through Kansas and Missouri, as to Presidential preferences. In Missouri 270 answers from Democrats were received. Of these 201 were for Cleveland, 3 for Thurman 1 for Wade Hampton, and the rest scattering. The Republicans sent 201 answers of which 77 were for Blaine, 77 for Sherman 41 for Lincoln, and the rest scattering. In Kansas 326 Democrats answered as follows: Cleveland 306, Thurman 7, Hill 6, remainder scattering. The Republicans sent 302 answers, of which 151 were for Blaine 86 for Sherman, 44 for Lincoln and the rest scattering.

Lieutenant General Sheridan has written a letter to the Secretary of War requesting that Major General John M. Schofield, commanding the division of the troops to be concentrated in Philadelphia in September to participate in the pageant at the celebration of the centennial of the Constitution of the United States. Owing to a previous engagement and the necessity of an inspection of the far western posts before the winter weather sets in, the Lieutenant General finds it impossible to be at Philadelphia on the occasion mentioned. It is proposed to mass nearly all the troops in a division of the Atlantic, with the exception of a small guard at the forts. This will form a force made up from the garrisons of New York harbor, the division headquarters being at Governors Island and the various ports and military stations along the Atlantic coast and along the great lakes of the North as far as Fort Brady at the straits of Mackinac and including Chicago. Instructions have been sent from the Navy Department to the Admiral of the North Atlantic fleet which will set the vessels to heading for the Delaware river as soon as the present manœuvres in the main waters are over.

Minister Phelps

Is it not funny to read in the Cable despatches that the health of Mr. Phelps, our Democratic representative at the Court of St. James, is somewhat impaired by the unusual severity of the social season. Yet we find that Col. Walker, Commander of the Boston Ancient and Honorable Artillery, who has been attending the anniversary of the original corps in London has only the kindest words to say of the Prince of Wales and his mother whom he met on several occasions under most favorable auspices but that their treatment of the Boston Ancients was in marked contrast to that of the American Minister at the Court of St. James. "He is a blanked snob, and I intend to proclaim it openly" declared the Colonel. Mr. Phelps' defects, he said, were great stiffness of manner, general disagreeableness and a seeming unwillingness to in any way oblige Americans by giving them information when sought for. Although they had met before the minister did not honor the "Ancients" with an invitation to his reception, and early on the morning of the Fourth of July Col. Walker sent to the Minister asking at what hour his compatriot might pay its respects to the representative of its nation. At two o'clock in the afternoon several hours after it was expected, a card of admission was sent to him to be presented at four o'clock, and under the circumstances the Colonel declined to attend.

The Maryland Revolt

A Baltimore despatch says that excitement over the great turn in the political situation in favor of the Republicans continues throughout the State. William Keyser ex-vice-president of the Baltimore and Ohio Railroad, a wealthy and prominent Democratic citizen who has been identified with the reform movement, has written a letter to the Republican State Central Committee pledging his support to the Republican ticket. S. Fenkle Wallis, also a prominent Democrat and one of the leading attorneys of the State, units with Messrs. Cowan and Keyser in endorsing the ticket, the election of which Mr. Wallis in his letter declares can alone accomplish the reforms necessary in Maryland. From every county in the State come Democratic endorsements of the ticket. Until last evening there was some doubt about Walter B. Brook's acceptance of the gubernatorial nomination. General Felix Angus, publisher of *The American*, last night received a despatch from Mr. Brooks who is summering in Massachusetts, declaring his intention to accept the nomination. Ex-Governor William T. Hamilton's paper, the Hagerstown *Advertiser*, commends highly those sections of the platform which promises reform of the election abuses. Mr. Hamilton has always been a straightforward Democrat, but a bitter opponent of Senator Gorman. Should Hamilton, too, endorse the Republican ticket it would cause a general stampede of the Western Maryland Democracy to the same, as Hamilton wields a powerful influence in that section.

The Wheeling Episode.

At Wheeling, W. Va., the other day Governor Wilson, of that State, made a very bitter speech exalting the Confederates and assailing the North. Governor Foraker, in a scathing speech replied most effectively. Among other things he is reported as saying:

If the Southerners are loyal, what do they want with the flag? Most of us think that the South did not want the flag, and the most favorable terms of insurance by the South are for compensation for the flag. Let the South come and take the flag, if they want them. (Cheers and hisses.) The North conquered the South with bayonets once; the North is now conquering the South with capital and enterprises. Sectional feeling! How about the time when Charleston was rocked in the throes

TRADE ACCIDENT. Sewall Lane, a 22-year-old son of Alexander Lane, of Brewer Village, was run over by a team of horses this afternoon, and lived but a short time. He was riding on the team and the driver and crawled over the team to the hind part of the team to get a horse to run him. He fell off in the hind wheel, which passed under his body, crushing him terribly. The driver did not know what had happened, but he got to the mill some distance from the scene of the accident. He was sent to his home and every possible means done to relieve his sufferings. His father who was absent, was then sent for.
